S I R :

Responsive to the Office Action dated December 31, 2002, please  
amend the above-identified application as follows:

CLAIMS:

Please replace claim 7, 12 and 13 with the following amended claims:

7. (Once Amended) An endoluminal device for deployment within  
a first lumen comprising a restricted section having an inner surface with an inner  
diameter and a bifurcation into branch lumens each having an inner surface with an  
inner diameter, the restricted section inner diameter being smaller than a sum of the  
branch lumen inner diameters, the device comprising a proximal main tubular  
portion to be retained within a proximal portion of the first lumen and having a first  
diameter and two tubular limbs depending from the proximal main tubular portion,  
each limb having a second diameter and a distal end portion for deployment inside  
one of the branch lumens against the branch lumen inner surface, the distal end  
portion defining a third diameter larger than the second diameter, wherein the sum
